| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | Pure Urtica dioica lectin from stinging nettle, covalently linked to colloidal gold (10nm particle size). Lectins are derived from the extracts of plants, animals, viruses and microorganisms and are known to agglutinate red blood cells. These aggluti... |
| Formulierung             | Supplied as a liquid in dH2O, pH 7.0-7.5. Labeled with colloidal gold (10nm).                                                                                                                                                                                 |
