## Product Datasheet

**Vanilloid Receptor Like Protein 3 (Vanilloid Receptor-like 3, VRL 3, VRL-3, VRL3, HGNC:18084, Transient Receptor Potential Cation Channel Subfamily V Member 3, Trpv3 Heat Sensitive Channel, TRPV3), IgG2a, Clone: [10F779], Mouse, M  
USB-V2075-28D**

|                          |                                                                                                                                                                                                                                                               |

| Hersteller Artikelnummer | V2075-28D                                                                                                                                                                                                                                                     |
| Alternativnummer         | USB-V2075-28D-100                                                                                                                                                                                                                                             |
| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IP, WB                                                                                                                                                                                                                                                        |
| Immunogen                | Synthetic peptide corresponding to aa 458-474 (cytoplasmic C-terminus) of rat TrpV3 accession number NP_001020928).                                                                                                                                           |
| Produktbeschreibung      | Ion channels are integral membrane proteins that help establish and control the small voltage gradient across the plasma membrane of living cells by allowing the flow of ions down their electrochemical gradient (1). They are present in the membranes ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [10F779]                                                                                                                                                                                                                                                      |

|              |                                                                          |
|--------------|--------------------------------------------------------------------------|
| Isotyp       | IgG2a                                                                    |
| NCBI         | <a href="#">001020928</a>                                                |
| Reinheit     | Purified by Protein G affinity chromatography.                           |
| Formulierung | Supplied as a liquid in PBS, pH7.4, 0.09% sodium azide and 50% glycerol. |
