| Hersteller               | US Biological                                                                                                                                                                                                                                                 |
| Kategorie                | Molekularbiologie                                                                                                                                                                                                                                             |
| Produktbeschreibung      | Pure Vicia villosa lectin from hairy vetch, covalently linked to colloidal gold (30nm particle size). Lectins are derived from the extracts of plants, animals, viruses and microorganisms and are known to agglutinate red blood cells. These agglutinins... |
| Formulierung             | Supplied as a liquid in dH <sub>2</sub> O, pH 7.0-7.5. Labeled with colloidal gold (30nm).                                                                                                                                                                    |
