## Product Datasheet

### **GFAP recombinant monoclonal antibody, clone 6B12, Clone: [6B12], Monoclonal ABN-RAB08689**

|                          |                                                                                      |
|--------------------------|--------------------------------------------------------------------------------------|
| Artikelname              | GFAP recombinant monoclonal antibody, clone 6B12, Clone: [6B12], Monoclonal          |
| Artikelnummer            | ABN-RAB08689                                                                         |
| Hersteller Artikelnummer | RAB08689                                                                             |
| Alternativnummer         | ABN-RAB08689-50                                                                      |
| Hersteller               | Abnova                                                                               |
| Kategorie                | Antikörper                                                                           |
| Applikation              | ELISA, FC, IF, IHC, WB                                                               |
| Spezies Reaktivität      | Human                                                                                |
| Immunogen                | Original antibody is raised against a synthetic peptide corresponding to human GFAP. |
| Produktbeschreibung      | Rabbit recombinant monoclonal antibody raised against human, mouse and rat GFAP....  |
| Klonalität               | Monoclonal                                                                           |
| Klon-Bezeichnung         | [6B12]                                                                               |
| UniProt                  | 2670                                                                                 |
| Puffer                   | In PBS, pH7.4 (150 mM NaCl, 0.02% sodium azide and 50% glycerol)                     |
| Formulierung             | Liquid                                                                               |

| Target-Kategorie       | GFAP                                                                                                                                                                                      |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | ELISAFlow Cytometry(1:50-1:200)Immunohistochemistry(1:50-1:200)Immunofluorescence(1:20-1:200)Western Blot(1:500-1:2000)The optimal working dilution should be determined by the end user. |
