## Product Datasheet

### **CHGA recombinant monoclonal antibody, clone rCHGA/413, Clone: [rCHGA/413], Monoclonal ABN-RAB08836**

|                          |                                                                                                  |
|--------------------------|--------------------------------------------------------------------------------------------------|
| Artikelname              | CHGA recombinant monoclonal antibody, clone rCHGA/413, Clone: [rCHGA/413], Monoclonal            |
| Artikelnummer            | ABN-RAB08836                                                                                     |
| Hersteller Artikelnummer | RAB08836                                                                                         |
| Alternativnummer         | ABN-RAB08836-20                                                                                  |
| Hersteller               | Abnova                                                                                           |
| Kategorie                | Antikörper                                                                                       |
| Applikation              | FC, IF, IHC-P                                                                                    |
| Spezies Reaktivität      | Human                                                                                            |
| Immunogen                | Original antibody is raised against recombinant protein corresponding to full length human CHGA. |
| Produktbeschreibung      | Mouse recombinant monoclonal antibody raised against human CHGA....                              |
| Klonalität               | Monoclonal                                                                                       |
| Klon-Bezeichnung         | [rCHGA/413]                                                                                      |
| UniProt                  | 1113                                                                                             |
| Puffer                   | In 10 mM PBS (0.05% BSA, 0.05% sodium azide)                                                     |
| Formulierung             | Liquid                                                                                           |

| Target-Kategorie       | CHGA                                                                                                                                                                                                                                 |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | Flow Cytometry (0.5-1 ug/10 <sup>6</sup> cells)Immunofluorescence (1-2 ug/mL)Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) (0.25-0.5 ug/mL)The optimal working dilution should be determined by the end user. |
