## Product Datasheet

### **CGB recombinant monoclonal antibody, clone rHCGb/54, Clone: [rHCGb/54], Monoclonal ABN-RAB08870**

|                          |                                                                                                    |
|--------------------------|----------------------------------------------------------------------------------------------------|
| Artikelname              | CGB recombinant monoclonal antibody, clone rHCGb/54, Clone:<br>[rHCGb/54], Monoclonal              |
| Artikelnummer            | ABN-RAB08870                                                                                       |
| Hersteller Artikelnummer | RAB08870                                                                                           |
| Alternativnummer         | ABN-RAB08870-20                                                                                    |
| Hersteller               | Abnova                                                                                             |
| Kategorie                | Antikörper                                                                                         |
| Applikation              | IHC-P                                                                                              |
| Spezies Reaktivität      | Human                                                                                              |
| Immunogen                | Original antibody is raised against recombinant protein<br>corresponding to full length human CGB. |
| Produktbeschreibung      | Mouse recombinant monoclonal antibody raised against full length<br>recombinant human CGB....      |
| Klonalität               | Monoclonal                                                                                         |
| Klon-Bezeichnung         | [rHCGb/54]                                                                                         |
| UniProt                  | 1082                                                                                               |
| Puffer                   | In 10 mM PBS (0.05% BSA, 0.05% sodium azide)                                                       |
| Formulierung             | Liquid                                                                                             |

| Target-Kategorie       | CGB                                                                                                                                                  |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) (0.5-1 ug/mL)The optimal working dilution should be determined by the end user. |
