## Product Datasheet

### **FTL recombinant monoclonal antibody, clone FTL/2338R, Clone: [FTL/2338R], Monoclonal ABN-RAB08875**

|                          |                                                                                                              |
|--------------------------|--------------------------------------------------------------------------------------------------------------|
| Artikelname              | FTL recombinant monoclonal antibody, clone FTL/2338R, Clone:<br>[FTL/2338R], Monoclonal                      |
| Artikelnummer            | ABN-RAB08875                                                                                                 |
| Hersteller Artikelnummer | RAB08875                                                                                                     |
| Alternativnummer         | ABN-RAB08875-20                                                                                              |
| Hersteller               | Abnova                                                                                                       |
| Kategorie                | Antikörper                                                                                                   |
| Applikation              | IHC-P, WB                                                                                                    |
| Spezies Reaktivität      | Human                                                                                                        |
| Immunogen                | Original antibody is raised against recombinant protein<br>corresponding to amino acids 38-165 of human FTL. |
| Produktbeschreibung      | Rabbit recombinant monoclonal antibody raised against partial<br>recombinant human FTL....                   |
| Klonalität               | Monoclonal                                                                                                   |
| Klon-Bezeichnung         | [FTL/2338R]                                                                                                  |
| UniProt                  | 2512                                                                                                         |
| Puffer                   | In 10 mM PBS (0.05% BSA, 0.05% sodium azide)                                                                 |
| Formulierung             | Liquid                                                                                                       |

|                        |                                                                                                                                                                                |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target-Kategorie       | FTL                                                                                                                                                                            |
| Application Verdünnung | Immunohistochemistry (Formalin/PFA-fixed paraffin-embedded sections) (0.5-1 ug/mL)Western Blot (0.5-2 ug/mL)The optimal working dilution should be determined by the end user. |
