## Product Datasheet

### **Anti-NDFIP2 Antibody Picoband (monoclonal, 10D6D7) Biotin Conjugated, Clone: [Clone: 10D6D7], Mouse, Monoclonal BOB-M08384-BIOTIN**

|                          |                                                                                                                 |
|--------------------------|-----------------------------------------------------------------------------------------------------------------|
| Artikelname              | Anti-NDFIP2 Antibody Picoband (monoclonal, 10D6D7) Biotin Conjugated, Clone: [Clone: 10D6D7], Mouse, Monoclonal |
| Artikelnummer            | BOB-M08384-BIOTIN                                                                                               |
| Hersteller Artikelnummer | M08384-Biotin                                                                                                   |
| Alternativnummer         | BOB-M08384-BIOTIN-100UG                                                                                         |
| Hersteller               | Boster Bio                                                                                                      |
| Wirt                     | Mouse                                                                                                           |
| Kategorie                | Antikörper                                                                                                      |
| Applikation              | ELISA, IHC, WB                                                                                                  |
| Spezies Reaktivität      | Human                                                                                                           |
| Immunogen                | E.coli-derived human NDFIP2 recombinant protein (Position: M16-L336).                                           |
| Klonalität               | Monoclonal                                                                                                      |
| Klon-Bezeichnung         | [Clone: 10D6D7]                                                                                                 |
| NCBI                     | <a href="#">54602</a>                                                                                           |
| UniProt                  | <a href="#">Q9NV92</a>                                                                                          |
| Puffer                   | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> , 0.02% Na <sub>3</sub> .     |

|                        |                                                                                                                                                                                                                                       |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | Immunogen affinity purified.                                                                                                                                                                                                          |
| Formulierung           | Liquid                                                                                                                                                                                                                                |
| Target-Kategorie       | NEDD4 family-interacting protein 2                                                                                                                                                                                                    |
| Application Verdünnung | Western blot, Optimal dilutions should be determined by end users. Immunohistochemistry (Paraffin-embedded Section), Optimal dilutions should be determined by end users. ELISA, Optimal dilutions should be determined by end users. |
