| Hersteller               | Biorbyt                                                                                                                                                                                    |
| Kategorie                | Proteine/Peptide                                                                                                                                                                           |
| Produktbeschreibung      | Recombinant PRRSV N protein, N-His, expressed in E.coli, with a molecular weight of 18 kDa, and a purity of >90% as determined by SDS-PAGE. It was purified by AC, and has a N-His tag.... |
| Molekulargewicht         | 18 kDa                                                                                                                                                                                     |
| Puffer                   | 20mM Tris-HCl (pH9.0) with 8M urea.                                                                                                                                                        |
| Reinheit                 | >90% as determined by SDS-PAGE                                                                                                                                                             |
| Formulierung             | Lyophilized or Liquid                                                                                                                                                                      |
| Sequenz                  | 1-128/128                                                                                                                                                                                  |
| Target-Kategorie         | Nucleocapsid protein                                                                                                                                                                       |
