### Recombinant Mesocricetus auratus T-cell surface glycoprotein CD3 epsilon chain (Cd3e), partial BYT-ORB1785235

|                          |  |
|--------------------------|--|
| Artikelname              | Recombinant Mesocricetus auratus T-cell surface glycoprotein CD3 epsilon chain (Cd3e), partial   |
| Artikelnummer            | BYT-ORB1785235   |
| Hersteller Artikelnummer | orb1785235   |
| Alternativnummer         | BYT-ORB1785235-1,BYT-ORB1785235-100,BYT-ORB1785235-20  |
| Hersteller               | Biorbyt  |
| Kategorie                | Proteine/Peptide   |
| Produktbeschreibung      | This Recombinant Mesocricetus auratus T-cell surface glycoprotein CD3 epsilon chain (Cd3e), partial spans the amino acid sequence from region 22-116aa. Purity: Greater than 90% as determined by SDS-PAGE....                     |
| Molekulargewicht         | 13.0 kDa   |
| UniProt                  | <a href="#">A0A3Q0CNZ4</a>   |
| Puffer                   | If the delivery form is liquid, the default storage buffer is Tris/PBS-based buffer, 5%-50% glycerol. If the delivery form is lyophilized powder, the buffer before lyophilization is Tris/PBS-based buffer, 6% Trehalose, pH 8.0. |
| Quelle                   | Mesocricetus auratus (Golden hamster)  |
| Reinheit                 | Greater than 90% as determined by SDS-PAGE.  |
| Formulierung             | Liquid or Lyophilized powder   |

|                        |   |

| Anwendungsbeschreibung | Biological Origin: Mesocricetus auratus (Golden hamster). Application Notes: We recommend that this vial be briefly centrifuged prior to opening to bring the contents to the bottom. Please reconstitute protein in deionized sterile water to a concentration of 0.1-1.0 mg/mL. We recommend to add 5-50% of glycerol (final concentration) and aliquot for long-term storage at -20°C/-80°C. Our default final concentration of glycerol is 50%. Customers could use it as reference |
