## Product Datasheet

### Rat Neuron Specific Enolase (NSE) ELISA Kit BYT-ORB1806919

Artikelname	Rat Neuron Specific Enolase (NSE) ELISA Kit
Artikelnummer	BYT-ORB1806919
Hersteller Artikelnummer	orb1806919
Alternativnummer	BYT-ORB1806919-48,BYT-ORB1806919-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Rat
Produktbeschreibung	Rat Neuron Specific Enolase (NSE) ELISA Kit...
Detektionsbereich	0.31-20ng/mL
Sensitivitaet	0.19 ng/mL
UniProt	<a href="#">P07323</a>
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	NSE

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Rat NSE. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Rat NSE and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Rat NSE, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Rat NSE. You can calculate the concentration of Rat NSE in the samples by comparing the OD of the samples to the standard curve
