Mouse Alpha Crosslaps (alpha-CTx) ELISA Kit BYT-ORB1946786

Artikelname	Mouse Alpha Crosslaps (alpha-CTx) ELISA Kit
Artikelnummer	BYT-ORB1946786
Hersteller Artikelnummer	orb1946786
Alternativnummer	BYT-ORB1946786-48,BYT-ORB1946786-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Mouse
Produktbeschreibung	Mouse Alpha Crosslaps (alpha-CTx) ELISA Kit...
Detektionsbereich	78.13-5000pg/mL
Sensitivitaet	46.88 pg/mL
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	alpha-CTx

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Mouse alpha-CTx. During the reaction, Mouse alpha-CTx in the sample or standard competes with a fixed amount of Mouse alpha-CTx on the solid phase supporter for sites on the Biotinylated Detection Ab specific to Mouse alpha-CTx. Excess conjugate and unbound sample or standard are washed away, and Avidin-Horseradish Peroxidase (HRP) conjugate are added to each micro plate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns from blue to yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm \pm 2 nm. The concentration of Mouse alpha-CTx in tested samples can be calculated by comparing the OD of the samples to the standard curve
