Rat Oxyntomodulin (OXM) ELISA Kit BYT-ORB1946805

Artikelname	Rat Oxyntomodulin (OXM) ELISA Kit
Artikelnummer	BYT-ORB1946805
Hersteller Artikelnummer	orb1946805
Alternativnummer	BYT-ORB1946805-48,BYT-ORB1946805-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Rat
Produktbeschreibung	Rat Oxyntomodulin (OXM) ELISA Kit...
Detektionsbereich	1.57-100ng/mL
Sensitivitaet	0.94 ng/mL
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	OXM

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Rat OXM. During the reaction, Rat OXM in the sample or standard competes with a fixed amount of Rat OXM on the solid phase supporter for sites on the Biotinylated Detection Ab specific to Rat OXM. Excess conjugate and unbound sample or standard are washed away, and Avidin-Horseradish Peroxidase (HRP) conjugate are added to each micro plate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns from blue to yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm \pm 2 nm. The concentration of Rat OXM in tested samples can be calculated by comparing the OD of the samples to the standard curve
