## Product Datasheet

### Human Obestatin (OB) ELISA Kit BYT-ORB1946819

Artikelname	Human Obestatin (OB) ELISA Kit
Artikelnummer	BYT-ORB1946819
Hersteller Artikelnummer	orb1946819
Alternativnummer	BYT-ORB1946819-48,BYT-ORB1946819-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Produktbeschreibung	Human Obestatin (OB) ELISA Kit...
Detektionsbereich	0.79-50ng/mL
Sensitivitaet	0.47 ng/mL
UniProt	<a href="#">Q9UBU3</a>
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	OB

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Human OB. During the reaction, Human OB in the sample or standard competes with a fixed amount of Human OB on the solid phase supporter for sites on the Biotinylated Detection Ab specific to Human OB. Excess conjugate and unbound sample or standard are washed away, and Avidin-Horseradish Peroxidase (HRP) conjugate are added to each micro plate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns from blue to yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm  $\pm$  2 nm. The concentration of Human OB in tested samples can be calculated by comparing the OD of the samples to the standard curve
