### Human IGF-I Protein, His Tag, Unconjugated BYT-ORB1146986

|                          |                                                                                                                                          |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Human IGF-I Protein, His Tag, Unconjugated                                                                                               |
| Artikelnummer            | BYT-ORB1146986                                                                                                                           |
| Hersteller Artikelnummer | orb1146986                                                                                                                               |
| Alternativnummer         | BYT-ORB1146986-100,BYT-ORB1146986-1                                                                                                      |
| Hersteller               | Biorbyt                                                                                                                                  |
| Kategorie                | Proteine/Peptide                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                    |
| Konjugation              | Unconjugated                                                                                                                             |
| Produktbeschreibung      | Human IGF-I, His Tag, premium grade is expressed from human 293 cells (HEK293). It contains AA Gly 49 - Ala 118 (Accession P05019-1).... |
| Molekulargewicht         | 9.5 kDa                                                                                                                                  |
| NCBI                     | <a href="#">05019</a>                                                                                                                    |
| UniProt                  | <a href="#">P05019</a>                                                                                                                   |
| Puffer                   | PBS, pH 7.4                                                                                                                              |
| Reinheit                 | 90%                                                                                                                                      |
| Formulierung             | Powder                                                                                                                                   |
| Target-Kategorie         | IGF-I                                                                                                                                    |

|                        |                                                                                                                                                                                                                                                                                       |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | Application Notes: This protein carries a polyhistidine tag at the N-terminus. The protein has a calculated MW of 9.5 kDa. The protein migrates as 12 kDa when calibrated against Star Ribbon Pre-stained Protein Marker under reducing (R) condition (SDS-PAGE) due to glycosylation |
