| Artikelname              | ENO2 Antibody, IgG2b, Clone: [ENO2/1375], Unconjugated, Mouse, Monoclonal                              |
| Artikelnummer            | BYT-ORB1252204                                                                                         |
| Hersteller Artikelnummer | orb1252204                                                                                             |
| Alternativnummer         | BYT-ORB1252204-100                                                                                     |
| Hersteller               | Biorbyt                                                                                                |
| Wirt                     | Mouse                                                                                                  |
| Kategorie                | Antikörper                                                                                             |
| Applikation              | FC, IF, IHC, WB                                                                                        |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                      |
| Immunogen                | Amino acids 416-433 of human Neuron Specific Enolase were used as the immunogen for this NSE antibody. |
| Konjugation              | Unconjugated                                                                                           |
| Produktbeschreibung      | ENO2 Antibody...                                                                                       |
| Klonalität               | Monoclonal                                                                                             |
| Konzentration            | 0.2 mg/mL                                                                                              |
| Klon-Bezeichnung         | [ENO2/1375]                                                                                            |
| Isotyp                   | IgG2b                                                                                                  |

|                        |                                                                                                                                                                                                                                                                                                                                                                                               |

| UniProt                | <a href="#">P09104</a>                                                                                                                                                                                                                                                                                                                                                                        |
| Puffer                 | PBS with 0.1 mg/ml rAlbumin and 0.05% sodium azide                                                                                                                                                                                                                                                                                                                                            |
| Formulierung           | Liquid                                                                                                                                                                                                                                                                                                                                                                                        |
| Target-Kategorie       | ENO2                                                                                                                                                                                                                                                                                                                                                                                          |
| Anwendungsbeschreibung | <p>Application Notes: Western blot: 0.5-1 µg/mL<br/> Flow Cytometry: 0.5-1 ug/million cells in 0.1mL<br/> IF: 1-2 µg/mL<br/> IHC (FFPE): 0.1-0.2 µg/mL for 30 min at RT<br/> The concentration stated for each application is a general starting point. Variations in protocols, secondaries and substrates may require the NSE antibody to be titered up or down for optimal performance</p> |
