| Immunogen                | Human milk-fat globule membranes (HMFGM)                                                                                                                                                                                                                      |
| Produktbeschreibung      | This MAb reacts with MUC1, a large transmembrane glycoprotein expressed on the ductal surface of normal glandular epithelia. It is used as tracer agent in CA15.3 assays. The extracellular domain of MUC1 largely consists of a highly conserved, O-glyco... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
