| Alternativnummer         | ABI-10-4165-100UG                                                                                                                                                                                                                                             |
| Hersteller               | Abeomics                                                                                                                                                                                                                                                      |
| Wirt                     | Mouse                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A partial length recombinant MUL1 protein (amino acids 146-352) was used as the immunogen for this antibody.                                                                                                                                                  |
| Produktbeschreibung      | MUL1 (Mitochondrial E3 Ubiquitin Protein Ligase-1) is a crucial moderator of RIG-I (Retinoic Acid-Inducible-Gene-I) signaling. This protein is localized to the mitochondria where it interacts with MAVS (Mitochondrial Antiviral Signaling) and catalyze... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [ABM4F71]                                                                                                                                                                                                                                                     |
| NCBI                     | <a href="#">79594</a>                                                                                                                                                                                                                                         |
| UniProt                  | <a href="#">Q969V5</a>                                                                                                                                                                                                                                        |

|                        |                                  |
|------------------------|----------------------------------|
| Reinheit               | Protein G Chromatography         |
| Formulierung           | Purified                         |
| Target-Kategorie       | MUL1                             |
| Application Verdünnung | Western blot analysis: 4-8 µg/ml |
