| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A partial length recombinant UNC93B protein (amino acids 300-597) was used as the immunogen for this antibody.                                                                                                                                                |
| Produktbeschreibung      | Unc-93 homolog B1 (C. elegans), also known as UNC93B1, is a protein which in humans is encoded by the UNC93B1 gene. Plays an important role in innate and adaptive immunity by regulating nucleotide-sensing Toll-like receptor (TLR) signaling also they ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
