| Hersteller               | Abeomics                                                                                                                                                                                                                                                      |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS                                                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                | A synthetic phosphor-peptide corresponding to residues surrounding Thr180 and Tyr182 of human phospho p38MAPK                                                                                                                                                 |
| Konjugation              | SureLight 488                                                                                                                                                                                                                                                 |
| Produktbeschreibung      | P38 mitogen-activated protein kinase (MAPK) is a stress-activated serine/threonine protein kinase and belongs to the MAP kinase superfamily. Various stress stimuli such as ultraviolet light, irradiation, heat shock, proinflammatory cytokines, mitogen... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |

|                        |                                                                                                                                                                                                                               |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Klon-Bezeichnung       | [p38MAPKT180Y182-E3]                                                                                                                                                                                                          |
| Formulierung           | Conjugated                                                                                                                                                                                                                    |
| Application Verdünnung | For flow cytometric staining, the suggested use of this reagent is 5 µL per million cells or 5 µL per 100 µL of staining volume. It is recommended that the reagent be titrated for optimal performance for each application. |
