## Product Datasheet

### **Phospho-MAPKAPK2 (Thr334) (Clone: H2) rabbit mAb APC conjugate, Clone: [MAPKAPK2T334-H2], Rabbit, Monoclonal ABI-12-4194**

|                          |                                                                                                                                                                                                                                                               |

| Hersteller               | Abeomics                                                                                                                                                                                                                                                      |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FACS                                                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Human, Mouse                                                                                                                                                                                                                                                  |
| Immunogen                | A synthetic phospho-peptide corresponding to residues surrounding Thr334 of human phospho MAPKAPK-2.                                                                                                                                                          |
| Konjugation              | APC                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | Mitogen-activated protein kinase (MAPK)-activated protein kinase 2 (phospho MAPKAPK-2 or phospho MK2) is phosphorylated and activated by the p38 MAPK and it is known to transduce a range of extracellular signals that result in inflammatory response, ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [MAPKAPK2T334-H2]                                                                                                                                                                                                                                             |

|                        |                                                                                                                                                                                                                               |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Conjugated                                                                                                                                                                                                                    |
| Application Verdünnung | For flow cytometric staining, the suggested use of this reagent is 5 µL per million cells or 5 µL per 100 µL of staining volume. It is recommended that the reagent be titrated for optimal performance for each application. |
