## Product Datasheet

### **Phospho-c-Cbl (Tyr700) (Clone: E1) rabbit mAb, Clone: [CbIY700-E1], Unconjugated, Rabbit, Monoclonal ABI-12-4255**

|                          |                                                                                                                                                                                                                                                                        |

| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                                      |
| Immunogen                | A synthetic phospho-peptide corresponding to residues surrounding<br>Tyr700 of human phospho c-Cbl                                                                                                                                                                     |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | The c-Cbl (Casitas B-lineage Lymphoma) proto-oncogene is a<br>ubiquitously expressed cytoplasmic adaptor protein that contains<br>multiple functional domains, including an amino-terminal tyrosine<br>kinase-binding (TKB) domain, a RING finger motif, and a prol... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                             |
| Klon-Bezeichnung         | [CbIY700-E1]                                                                                                                                                                                                                                                           |

|                        |                                                                                                                                                                                                                |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Purified                                                                                                                                                                                                       |
| Application Verdünnung | 1µg/mL - 0.001µg/mL. It is recommended that the reagent be titrated for optimal performance for each application. See product image legends for additional information.(0.5mg/ml, more than 200 western blots) |
