| Applikation              | ELISA                                                                                                                                                                                                                                                                                                                                                          |
| Produktbeschreibung      | Specificity: Clone RVFV-296 binds the Gn glycoprotein of Rift Valley Fever Virus (RVFV). Antigen Distribution: Rift Valley Fever Virus (RVFV) is primarily found in hepatic cells, endothelial cells, and mononuclear phagocytes in the human body. This d...                                                                                                  |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [RVFV-296]                                                                                                                                                                                                                                                                                                                                                     |
| Reinheit                 | Purity: >=90% monomer by analytical SEC and SDS-Page<br>Preparation: Recombinant antibodies are manufactured in an animal free facility using only in vitro protein free cell culture techniques and are purified by a multi-step process including the use of protein A or G to assure extremely low levels of endotoxins, leachable protein A or aggregates. |
| Target-Kategorie         | Glycoprotein (Gn)                                                                                                                                                                                                                                                                                                                                              |
