| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                          |
| Immunogen                | Microsomes from A431 cells.                                                                                                                                                                                                                                    |
| Produktbeschreibung      | This antibody reacts with the extracellular domain of EGFR and blocks the EGF/TGF-alpha-induced activation. It also blocks tumor growth in vivo. It is excellent for purification of EGFR. EGFR is type I receptor tyrosine kinase with sequence homology t... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                     |
