| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Non-T, non-B human acute lymphoblastic leukemia REH6 cell line                                                                                                                                                                                                |
| Produktbeschreibung      | Recognizes a non-polymorphic determinant of DP-MHC class II. MHC class II antigens are transmembrane glycoproteins of non-covalently linked alpha (33-35kDa) and beta (27-30kDa) chains. It reportedly reacts with B- non-T, non-B cell lines but not with... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [HLA-DPB1/2862R]                                                                                                                                                                                                                                              |
