| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant human ITGAX protein fragment (aa 637-827) (exact sequence is proprietary)                                                                                                                                                                         |
| Produktbeschreibung      | Recognizes a protein of 145kDa, identified as CD11c. CD11c (ITGAX), a member of the leukointegrin family, shares the same beta subunit with other members of the leukocyte adhesion molecule family, which includes CD11a (LFA-1), CD11b (MAC-1) and CD11d... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [ITGAX/1242]                                                                                                                                                                                                                                                  |
| NCBI                     | <a href="#">3687</a>                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                                                                                                                |
