| Immunogen                | Recombinant fragment (around aa 174-322) of human Vinculin (VCL) protein (exact sequence is proprietary)                                                                                                                                                      |
| Produktbeschreibung      | Focal adhesions are identified as areas within the plasma membrane of tissue culture cells that adhere tightly to the underlying substrate. In vivo, these regions are involved in the adhesion of cells to the extracellular matrix. Paxillin and vinculi... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [VCL/2575]                                                                                                                                                                                                                                                    |
| NCBI                     | <a href="#">7414</a>                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                                                                                                                             |
