| Artikelnummer            | KAB-NKP-HM430                                                                                                                               |
| Hersteller Artikelnummer | NKP-HM430                                                                                                                                   |
| Alternativnummer         | KAB-NKP-HM430-100UG, KAB-NKP-HM430-500UG                                                                                                    |
| Hersteller               | KactusBio                                                                                                                                   |
| Kategorie                | Proteine/Peptide                                                                                                                            |
| Spezies Reaktivität      | Human                                                                                                                                       |
| Produktbeschreibung      | Recombinant Human NKp30/NCR3/CD337 Protein is expressed from HEK293 with His tag and Avi tag at the C-Terminus.It contains Leu19-Thr138.... |
| Molekulargewicht         | The protein has a predicted MW of 20 kDa. Due to glycosylation, the protein migrates to 26-40 kDa based on Bis-Tris PAGE result.            |
| Tag                      | C-His-Avi                                                                                                                                   |
| UniProt                  | AAH52582                                                                                                                                    |
| Puffer                   | Lyophilized from 0.22µm filtered solution in PBS (pH 7.4). Normally 8% trehalose is added as protectant before lyophilization.              |
| Expression System        | HEK293                                                                                                                                      |
| Reinheit                 | > 95% as determined by Bis-Tris PAGE,> 95% as determined by HPLC                                                                            |
| Formulierung             | Lyophilized                                                                                                                                 |

|                  |                  |
|------------------|------------------|
| Sequenz          | Leu19-Thr138     |
| Target-Kategorie | NKp30/NCR3/CD337 |
