| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Human CD150-transfected 300.19 cells                                                                                                                                                                                                                          |
| Produktbeschreibung      | CD150, also known as SLAM (signaling lymphocyte activation molecule) is a 70-95 kDa single chain transmembrane phosphoglycoprotein of the CD2 family. Its extracellular part contains eight potential N-glycosylation sites, and the intracellular tail co... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [SLAM.4]                                                                                                                                                                                                                                                      |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4                                                                                                                                                                                                                       |

|                        |                                                  |
|------------------------|--------------------------------------------------|
| Lagerung               | 2°C to 8°C                                       |
| Antibody Type          | Monoclonal Antibody                              |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 1-3 µg/ml. |
