| Alternativnummer         | EXB-11-247-C100                                                                                                                                                                     |
| Hersteller               | EXBIO                                                                                                                                                                               |
| Kategorie                | Antikörper                                                                                                                                                                          |
| Applikation              | ELISA, ICC, IHC-P, RIA                                                                                                                                                              |
| Spezies Reaktivität      | Human                                                                                                                                                                               |
| Immunogen                | Human C-peptide conjugated to bovine serum albumin.                                                                                                                                 |
| Produktbeschreibung      | From every molecule of proinsulin, one molecule of insulin plus one molecule of C-peptide are produced. C-peptide is released into the blood stream in equal amounts to insulin.... |
| Klonalität               | Monoclonal                                                                                                                                                                          |
| Konzentration            | 1 mg/ml                                                                                                                                                                             |
| Klon-Bezeichnung         | [C-PEP-01]                                                                                                                                                                          |
| Isotyp                   | Mouse IgG1                                                                                                                                                                          |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                         |
| Lagerung                 | 2°C to 8°C                                                                                                                                                                          |
| Target-Kategorie         | C-peptide                                                                                                                                                                           |

|                        |                                                                                                                                     |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Antibody Type          | Monoclonal Antibody                                                                                                                 |
| Anwendungsbeschreibung | Immunohistochemistry (paraffin sections): Recommended dilution: 2-5 µg/ml, positive control: human pancreas (islets of Langerhans). |
