| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ICC, FC, IHC-Fr, IP                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Primate, Human                                                                                                                                                                                                                                                |
| Immunogen                | Human tonsillar B cells                                                                                                                                                                                                                                       |
| Produktbeschreibung      | CD20 is a cell surface 33-37 (depending on the degree of phosphorylation) kDa non-glycosylated surface phosphoprotein expressed on mature and most malignant B cells, but not stem cells or plasma cells (low number of the CD20 has been also detected on... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [2H7]                                                                                                                                                                                                                                                         |
| Isotyp                   | IgG2b, kappa                                                                                                                                                                                                                                                  |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                                   |

|                        |                                                  |
|------------------------|--------------------------------------------------|
| Lagerung               | 2°C to 8°C                                       |
| Antibody Type          | Monoclonal Antibody                              |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 1-4 µg/ml. |
