| Immunogen                | Human carcinoembryonic antigen (CEA, CEACAM5)                                                                                                                                                                                                                 |
| Konjugation              | APC                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | The CD66e (CEA, 180-200 kDa) is a member of carcinoembryonic antigens, immunoglobulin supergene family and consists of a single N domain (structural homology to the immunoglobulin variable) and six immunoglobulin constant-like A (A1, A2, A3) and B do... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.1 mg/ml                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [CB30]                                                                                                                                                                                                                                                        |
| Isotyp                   | Mouse IgG1                                                                                                                                                                                                                                                    |

|                  |                                                                         |
|------------------|-------------------------------------------------------------------------|
| Puffer           | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide |
| Lagerung         | 2°C to 8°C                                                              |
| Target-Kategorie | CD66e                                                                   |
| Antibody Type    | Monoclonal Antibody                                                     |
