| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Feline, Human, Mouse                                                                                                                                                                                                                                          |
| Immunogen                | Abelson murine leukemia virus-induced pre-B tumor cells                                                                                                                                                                                                       |
| Konjugation              | APC                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | CD45R, also known as B220, is a receptor-type protein tyrosine phosphatase glycoprotein. It is crucial in lymphocyte development and antigen signaling, serving as an important regulator of Src-family kinases, promotes cell survival by modulating inte... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [RA3-6B2]                                                                                                                                                                                                                                                     |
| Isotyp                   | Rat IgG2a kappa                                                                                                                                                                                                                                               |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                                   |

|                        |                                                  |
|------------------------|--------------------------------------------------|
| Lagerung               | 2°C to 8°C                                       |
| Target-Kategorie       | CD45R                                            |
| Antibody Type          | Monoclonal Antibody                              |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 1-4 µg/ml. |
