| Immunogen                | Human peripheral T cells.                                                                                                                                                                                                                                     |
| Konjugation              | PE                                                                                                                                                                                                                                                            |
| Produktbeschreibung      | CD2 belongs to T lymphocyte glycoproteins of immunoglobulin superfamily. Its interaction with CD58 stabilizes adhesion between T cells and antigen presenting or target cells. Relatively low affinity of CD2 to CD58 (as measured in solution) is compens... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [MEM-65]                                                                                                                                                                                                                                                      |
| Isotyp                   | IgG1                                                                                                                                                                                                                                                          |
| Puffer                   | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                       |

|                        |                                                                                                                                                                                                                           |

| Lagerung               | 2°C to 8°C                                                                                                                                                                                                                |
| Antibody Type          | Monoclonal Antibody                                                                                                                                                                                                       |
| Anwendungsbeschreibung | Flow cytometry: The reagent is designed for analysis of human blood cells using 20 µl reagent / 100 µl of whole blood or 10 <sup>6</sup> cells in a suspension. The content of a vial (2 ml) is sufficient for 100 tests. |
