| Hersteller               | EXBIO                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                         |
| Immunogen                | thymocytes from C3H/Di mice (Thy-1.2 positive)                                                                                                                                                                                                                |
| Konjugation              | PE                                                                                                                                                                                                                                                            |
| Produktbeschreibung      | CD90 (Thy-1) is an 18-35 kDa GPI-anchored plasma membrane glycoprotein expressed in many cell types, such as in hematopoietic cells and neurons, connective tissues, various fibroblast and stromal cell lines, tumor endothelial cell lines and other. In... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.1 mg/ml                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [1aG4/C5]                                                                                                                                                                                                                                                     |
| Isotyp                   | IgG3                                                                                                                                                                                                                                                          |

|                        |                                                                         |
|------------------------|-------------------------------------------------------------------------|
| Puffer                 | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide |
| Lagerung               | 2°C to 8°C                                                              |
| Antibody Type          | Monoclonal Antibody                                                     |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 1-2 µg/ml.                        |
