| Hersteller Artikelnummer | 1P-725-C100                                                                                                                                                                                                                                                  |
| Alternativnummer         | EXB-1P-725-C100                                                                                                                                                                                                                                              |
| Hersteller               | EXBIO                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                   |
| Applikation              | FC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                        |
| Immunogen                | N-terminal recombinant fragment of human DDIT4L (amino acids 2-98)                                                                                                                                                                                           |
| Konjugation              | PE                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | DDIT4L (DNA-damage-inducible transcript 4-like), also known as REDD2 (regulated in development and DNA damage response 2) or RTP801L is a stress-induced protein, which was shown to mediate monocyte cell death through a reduction in thioredoxin-1 exp... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                   |
| Konzentration            | 0.1 mg/ml                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [DDIT-03]                                                                                                                                                                                                                                                    |
| Isotyp                   | Mouse IgG1                                                                                                                                                                                                                                                   |

|                        |                                                                          |
|------------------------|--------------------------------------------------------------------------|
| Puffer                 | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide  |
| Lagerung               | 2°C to 8°C                                                               |
| Target-Kategorie       | DDIT4L                                                                   |
| Antibody Type          | Monoclonal Antibody                                                      |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 1-5 µg/ml. Intracellular staining. |
