| Produktbeschreibung      | ELISA Flex kit for quantification of IFN-gamma in solution, The llama IFN-gamma ELISA Flex kit is ideal for users who want the flexibility of setting up their own ELISA assay. This product enables quantification of llama IFN-gamma and alpaca IFN-gamm...                                                                               |
| Detektionsbereich        | 7-700 pg/ml                                                                                                                                                                                                                                                                                                                                 |
| NCBI                     | <a href="#">102534412</a>                                                                                                                                                                                                                                                                                                                   |
| Target-Kategorie         | IFN-gamma                                                                                                                                                                                                                                                                                                                                   |
