| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Plant                                                                                                                                                                                                                                                         |
| Immunogen                | Purified LHC complex from Porphyridium cruentum                                                                                                                                                                                                               |
| Produktbeschreibung      | The light-harvesting system is composed of pigment-binding proteins belonging to the Lhc multigenic family. Lhc polypeptides are able to bind chlorophyll a, chlorophyll b, and xanthophyll molecules in a suitable structural and dynamic mutual arrangem... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Molekulargewicht         | 20-25 kDa                                                                                                                                                                                                                                                     |
| Reinheit                 | Serum                                                                                                                                                                                                                                                         |
| Formulierung             | Lyophilized                                                                                                                                                                                                                                                   |
| Antibody Type            | Polyclonal Antibody                                                                                                                                                                                                                                           |

|                        |                                                                          |
|------------------------|--------------------------------------------------------------------------|
| Application Verdünnung | 1 : 1000 (WB)                                                            |
| Anwendungsbeschreibung | Strongly reactive to 7 Lhc1 light harvesting polypeptides of P. cruentum |
