| Konjugation              | tritc                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Donkey anti-sheep IgG (H&L), Rhodamine (TRITC-tetramethylrhodamine-5-isothiocyanate) conjugated is a secondary antibody which binds to sheep IgGs in immunological assays. TRITC has Amax = 550 nm, Emax = 570 nm. Antibodies are affinity purified using ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Reinheit                 | Immunogen affinity purified IgG.                                                                                                                                                                                                                              |
| Formulierung             | Lyophilized                                                                                                                                                                                                                                                   |
| Antibody Type            | Polyclonal Antibody                                                                                                                                                                                                                                           |
| Application Verdünnung   | The optimal working dilution should be determined by the investigator                                                                                                                                                                                         |

Anwendungsbeschreibung

For reconstitution add 1,1 ml of sterile water, Let it stand 30 minutes at room temperature to dissolve, Centrifuge to remove any particulates, Prepare fresh working dilutions daily
