| Kategorie                | Antikörper                                                                                                                                                                                   |
| Immunogen                | Purified rat IgG (H&L)                                                                                                                                                                       |
| Konjugation              | hrp                                                                                                                                                                                          |
| Produktbeschreibung      | Rabbit anti-rat IgG (H&L) is a secondary antibody conjugated to HRP, which binds to rat IgG (H&L) in immunological assays. Antibody is affinity purified using solid phase rat IgG (H&L).... |
| Klonalität               | Polyclonal                                                                                                                                                                                   |
| Reinheit                 | Immunogen affinity purified rabbit IgG.                                                                                                                                                      |
| Formulierung             | Lyophilized                                                                                                                                                                                  |
| Antibody Type            | Polyclonal Antibody                                                                                                                                                                          |
| Application Verdünnung   | This conjugate is suitable for all immunoassay applications, The optimal working dilution should be determined by the investigator                                                           |

Anwendungsbeschreibung

For reconstitution add 1,1 ml of sterile water, Let it stand 30 minutes at room temperature to dissolve, Prepare fresh working dilutions daily
