| Hersteller Artikelnummer | AS12-2365                                                                                                                                                                                     |
| Alternativnummer         | AGR-AS12-2365                                                                                                                                                                                 |
| Hersteller               | Agrisera                                                                                                                                                                                      |
| Wirt                     | Rabbit                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                    |
| Applikation              | WB                                                                                                                                                                                            |
| Spezies Reaktivität      | A. thaliana, Plant                                                                                                                                                                            |
| Immunogen                | KLH-conjugated synthetic peptide derived from Arabidopsis thaliana CNX1 UniProt: P29402 TAIR: AT5G61790, CNX2 UniProt: Q38798, TAIR: AT5G07340. This peptide is NOT present in calreticulins. |
| Produktbeschreibung      | CNX1/2 (calnexin homolog 1/2) is a calcium-binding protein involved in protein folding. It interacts with newly synthesized glycoproteins in the endoplasmic reticulum....                    |
| Klonalität               | Polyclonal                                                                                                                                                                                    |
| Molekulargewicht         | CNX1 60.5 kD, processing aa 1-20, mature peptide 58.1 kDCNX2 60.5/61.4 kD, processing aa 1-25, mature peptides 57.6/58.6 kD                                                                   |
| NCBI                     | <a href="#">836301</a>                                                                                                                                                                        |
| UniProt                  | <a href="#">P29402</a>                                                                                                                                                                        |

|                        |                                                         |
|------------------------|---------------------------------------------------------|
| Reinheit               | Immunogen affinity purified serum in PBS pH 7.4.        |
| Formulierung           | Liquid                                                  |
| Antibody Type          | Polyclonal Antibody                                     |
| Application Verdünnung | 1: 50 (IG), 1 : 2500 (WB)                               |
| Anwendungsbeschreibung | Antibody can be used as a marker of microsomal membrane |
