| Kategorie                | Antikörper                                                                                                                                                                                                                                                   |
| Immunogen                | Purified Goat IgG, whole molecule                                                                                                                                                                                                                            |
| Konjugation              | DyLight 800                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Chicken anti-Goat IgG (H&L), DyLight800 Conjugated, min. cross-reactivity to human, mouse or rabbit IgG and serum proteins is a secondary antibody conjugated to DyLight 800, which binds to Goat IgG (H&L) in immunological assays.DyLight 800 has Amax ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                   |
| Reinheit                 | Immunogen affinity purified chicken IgY.                                                                                                                                                                                                                     |
| Formulierung             | Lyophilized                                                                                                                                                                                                                                                  |
| Antibody Type            | Polyclonal Antibody                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                 |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | 1 : 20-1 : 2000 for most applications                                                                                                           |
| Anwendungsbeschreibung | For reconstitution add 0,55 ml of sterile water, Let it stand 30 minutes at room temperature to dissolve, Prepare fresh working dilutions daily |
