| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | WB                                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | A. thaliana                                                                                                                                                                                                                                                   |
| Immunogen                | recombinant full-length Arabidopsis thaliana GID1c, UniProt: Q940G6<br>TAIR: At5g27320                                                                                                                                                                        |
| Produktbeschreibung      | GID1c (Gibberellin receptor GID1C) is a gibberellin (GA) receptor ortholog of the rice GA receptor OsGID1 which binds to GA and shows affinity to GA4 and interacts with DELLA proteins in vivo in the presence of GA4. Alternative names: AtCXE19, Carbox... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Molekulargewicht         | 38 kDa (Arabidopsis)                                                                                                                                                                                                                                          |
| NCBI                     | <a href="#">832790</a>                                                                                                                                                                                                                                        |
| UniProt                  | <a href="#">Q940G6</a>                                                                                                                                                                                                                                        |

|                        |                                             |
|------------------------|---------------------------------------------|
| Reinheit               | Serum                                       |
| Formulierung           | Lyophilized                                 |
| Antibody Type          | Polyclonal Antibody                         |
| Application Verdünnung | 1 : 5000 (WB)                               |
| Anwendungsbeschreibung | This antibody is also recognizing GST-GID1, |
