| Hersteller Artikelnummer | AS14-2808                                                                                                                                                                                                        |
| Alternativnummer         | AGR-AS14-2808                                                                                                                                                                                                    |
| Hersteller               | Agrisera                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                           |
| Kategorie                | Antikörper                                                                                                                                                                                                       |
| Applikation              | WB                                                                                                                                                                                                               |
| Spezies Reaktivität      | A. thaliana                                                                                                                                                                                                      |
| Immunogen                | KLH-conjugated peptide, derived from Arabidopsis thaliana Trxf1 UniProt: Q9XFH9, TAIR: AT5G16400 and Trxf2 UniProt: Q9XFH8, TAIR: AT3G02730                                                                      |
| Produktbeschreibung      | Trxf1/2 (Thioredoxin F1/F2, chloroplastic) involved in the redox regulation of enzymes of Calvin-Benson cycle and oxidative pentose phosphate pathway. Alternative names: Thioredoxin F1, F2 AtTrxf1, AtTrxf2... |
| Klonalität               | Polyclonal                                                                                                                                                                                                       |
| Molekulargewicht         | 19.9   12 kDa                                                                                                                                                                                                    |
| NCBI                     | <a href="#">831501</a>                                                                                                                                                                                           |
| UniProt                  | <a href="#">Q9XFH9</a>                                                                                                                                                                                           |

|                        |                                                                                                                                                                                            |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | Immunogen affinity purified serum in PBS pH 7.4.                                                                                                                                           |
| Formulierung           | Lyophilized                                                                                                                                                                                |
| Antibody Type          | Polyclonal Antibody                                                                                                                                                                        |
| Application Verdünnung | 1 : 1000 (WB)                                                                                                                                                                              |
| Anwendungsbeschreibung | 5 mM DTT in extraction buffer and 5% B-ME in LAmml buffer are recommended to use, Samples should be heated at 95C for 2 min before loading as TRXs proteins have a tendency to oligomerize |
