| Alternativnummer         | AGR-AS16-3211                                                                                                                                                                                                                                                |
| Hersteller               | Agrisera                                                                                                                                                                                                                                                     |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                       |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                   |
| Applikation              | WB                                                                                                                                                                                                                                                           |
| Immunogen                | KLH-conjugated synthetic peptide derived from Arabidopsis thaliana CPCK2 protein UniProt: O64816, TAIR: AT2G23070                                                                                                                                            |
| Produktbeschreibung      | cpCK2 (Casein kinase II subunit alpha), chloroplastic is a chloroplast localized subunit of casien kinase4. It functions reduntantly with other alpha subunits (1, 2,and 3) in ABA mediated suppression of seed germination, lateral root development and... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                   |
| Molekulargewicht         | 50.2 kDa (apoprotein)                                                                                                                                                                                                                                        |
| NCBI                     | <a href="#">816837</a>                                                                                                                                                                                                                                       |
| UniProt                  | <a href="#">O64816</a>                                                                                                                                                                                                                                       |

|                        |                                                                                                                                            |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Reinheit               | Immunogen affinity purified serum in PBS pH 7.4.                                                                                           |
| Formulierung           | Lyophilized                                                                                                                                |
| Antibody Type          | Polyclonal Antibody                                                                                                                        |
| Application Verdünnung | 1: 1000 (WB)                                                                                                                               |
| Anwendungsbeschreibung | Antibody is detecting recombinant cpCK2 in fusion with N-terminal His and GST. Reactivity on endogenous material remains to be determined. |
