| Konzentration          | 2.0 mg/mL                                                                                                                                                                                                                                                                                                                                                                                                    |
| Isotyp                 | Ig                                                                                                                                                                                                                                                                                                                                                                                                           |
| Puffer                 | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                                                                                                                                                                                                                                                                                                                                   |
| Reinheit               | This product was prepared from monospecific antiserum by immunoaffinity chromatography using Human IgG coupled to agarose beads followed by solid phase adsorption(s) to remove any unwanted reactivities. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Fluorescein, anti-Rabbit Serum, Human IgG and Human Serum. No reaction was observed against Mouse Serum Proteins. |
| Formulierung           | Lyophilized                                                                                                                                                                                                                                                                                                                                                                                                  |
| Formel                 | 20 mM K3PO4,150 mM NaCl,pH 7,2,lyophilisate,0,01% NaN3                                                                                                                                                                                                                                                                                                                                                       |
| Target-Kategorie       | Human                                                                                                                                                                                                                                                                                                                                                                                                        |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                                                                                                                                                                           |
| Application Verdünnung | FLISA Dilution: 1:10,000 - 1:50,000, Flow Cytometry Dilution: 1:500 - 1:2,500, Fluorochrome Protein Value: 3.6, IF Microscopy Dilution: 1:1,000 - 1:5,000                                                                                                                                                                                                                                                    |
| Anwendungsbeschreibung | Anti-Human IgG (H&L) Fluorescein is designed for immunofluorescence microscopy, fluorescence based plate assays (FLISA) and fluorescent western blotting. This product is also suitable for multiplex analysis, including multicolor imaging, utilizing various commercial platforms.                                                                                                                        |
