Product Datasheet

Mouse Tumor Necrosis Factor Alpha (TNF-alpha) ELISA Kit BYT-ORB1806775

Artikelname	Mouse Tumor Necrosis Factor Alpha (TNF-alpha) ELISA Kit
Artikelnummer	BYT-ORB1806775
Hersteller Artikelnummer	orb1806775
Alternativnummer	BYT-ORB1806775-48,BYT-ORB1806775-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Mouse
Produktbeschreibung	Mouse Tumor Necrosis Factor Alpha (TNF-alpha) ELISA Kit...
Detektionsbereich	3.13-200pg/mL
Sensitivitaet	0.32 pg/mL
UniProt	P06804
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	TNF-alpha

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Mouse TNF-alpha. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Mouse TNF-alpha and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Mouse TNF-alpha, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm $\pm$ 2 nm. The OD value is proportional to the concentration of Mouse TNF-alpha. You can calculate the concentration of Mouse TNF-alpha in the samples by comparing the OD of the samples to the standard curve
