| Category                   | Proteine/Peptide                                                                                                                                                                                                  |
| Application                | ELISpot, FACS, FC, FluoroSpot, IHC, WB                                                                                                                                                                            |
| Species Reactivity         | Virus                                                                                                                                                                                                             |
| Product Description        | TYQRTRALV is a linear peptidic epitope studied as part of Nucleoprotein from Influenza A virus. This epitope has been studied for immune reactivity, tested in T cell assays, B cell assays, MHC ligand assays... |
| Purity                     | 95%                                                                                                                                                                                                               |
| Sequence                   | TYQRTRALV                                                                                                                                                                                                         |
