Product Datasheet

Mouse anti Tenascin C, IgG1, Clone: [T2H5], Monoclonal NMB-MUB2028P

Article Name	Mouse anti Tenascin C, IgG1, Clone: [T2H5], Monoclonal
Biozol Catalog Number	NMB-MUB2028P
Supplier Catalog Number	MUB2028P
Alternative Catalog Number	NMB-MUB2028P
Manufacturer	NordicMubio
Host	Mouse
Category	Antikörper
Application	ICC, IHC, IP, WB
Species Reactivity	Human
Product Description	Tenascin is a high molecular weight, multifunctional, extracellular matrix glycoprotein expressed in association with mesenchymal-epithelial interactions during development. It has been described under a variety of names, i.e. cytotactin, hexabrachio...
Clonality	Monoclonal
Clone Designation	[T2H5]
Isotype	IgG1
UniProt	P24821
Buffer	Each vial contains 100 µl 1 mg/ml purified monoclonal antibody in PBS containing 0.09% sodium azide.

Source	T2H5 is a mouse monoclonal IgG1 antibody derived by fusion of mouse myeloma cells with spleen cells from a BALB/c mouse immunized with full length native tenascin protein purified from a homogenate of a human mammary tumour specimen.
Formula	Each vial contains 100 µl 1 mg/ml purified monoclonal antibody in PBS containing 0.09% sodium azide.
Application Notes	T2H5 is suitable for immunoblotting, immunocytochemistry, and immunohistochemistry on frozen and paraffin-embedded tissues. Optimal antibody dilution should be determined by titration, recommended range is 1:100 - 1:200 for immunohistochemistry with avidin-biotinylated horseradish peroxidase complex (ABC) as detection reagent, and 1:100 - 1:1000 for immunoblotting applications.
