Goat anti Duck albumin, Clone: [Polyclonal], Monoclonal NMB-GADU/ALB

Article Name	Goat anti Duck albumin, Clone: [Polyclonal], Monoclonal
Biozol Catalog Number	NMB-GADU/ALB
Supplier Catalog Number	GADu/Alb
Alternative Catalog Number	NMB-GADU/ALB
Manufacturer	NordicMubio
Host	Goat
Category	Antikörper
Product Description	The defined antibody specificity is directed to albumin as tested against duck sera. In immunoelectrophoresis and double radial immunodiffusion (Ouchterlony), using various antiserum concentrations against appropriate concentrations of the immunogen,...
Clonality	Monoclonal
Clone Designation	[Polyclonal]
Buffer	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those in pooled goat serum. No foreign proteins added. Reconstitute the lyophilized antiserum
Source	Highly purified albumin isolated from duck serum. Freund's complete adjuvant is used in the first step of the immunization procedure.

Formula	Delipidated, heat inactivated, lyophilized, stable whole antiserum No preservative added. Total protein and IgG concentrations in the antiserum are comparable to those in pooled goat serum. No foreign proteins added.
Application Notes	Precipitation assays. In immunoelectrophoresis use 2 µl serum, plasma or equivalent against 120 µl antiserum. In double radial immunodiffusion (Ouchterlony) use a rosette arrangement with 10 µl antiserum in a 3 mm diameter centre well and 2 µl serum samples (neat and serially diluted) in 2 mm diameter peripheral wells. In single radial immunodiffusion and electroimmunodiffusion use 0.5 to 1.0 percent antiserum in the agar gel.
